alternative regulation in Order Nos. 95-1734 and 96-55 in Docket No. 95-661-C.

Absolute Home Phones intends to offer interexchange service to both business and residential customers throughout the state. Applicant intends to provide local exchange service to customers located in non-rural local exchange carriers' service areas of South Carolina. Should its Application be granted, Absolute Home Phones plans to commence offering service immediately upon the establishment of the appropriate and necessary resale arrangements with the incumbent Local Exchange Carriers ("LECs"). Applicant will be negotiating an interconnection/resale agreement with BellSouth Telecommunications, Inc. d/b/a AT&T South Carolina ("AT&T") to provide local service. Applicant intends to utilize AT&T, and other equivalent providers as its underlying interexchange carriers.

Approval of this Application will promote the public interest by increasing the level of competition in the South Carolina telecommunications market. Ultimately, competition will compel all telecommunications service providers to operate more efficiently and pass the resultant cost savings on to consumers. In addition, as a result of competition, the overall quality of local exchange and interexchange service will improve.

by Absolute Home Phones and the rates associated with such services; (2) monthly billing statements; (3) problems or concerns pertaining to a customer's current service; and (4) general service matters.

**III. Absolute Home Phones Possesses the Technical, Managerial and Financial Expertise Necessary to Provide Local Exchange and Interexchange Service**

Absolute Home Phones possesses the requisite technical, financial and managerial capabilities to operate as a competitive telecommunications provider. These capabilities are explained in detail below.

**1. Financial Qualifications**

Absolute Home Phones is financially able to provide the services proposed in its tariff as evidenced by its Balance Sheet and Profit and Loss Statement as of March 30, 2010.

**2. Managerial Qualifications**

Absolute Home Phones' senior management team is highly skilled, having acquired considerable experience in the telecommunications industry. Using this extensive expertise, Absolute Home Phones' management team has developed innovative marketing strategies. In conjunction with effective financial and operational measures, these marketing strategies will enable the company to provide quality service at competitive rates, while resulting in profitable operations for the Applicant. Absolute Home Phones has extensive experience in the technical, managerial, and financial aspects of the telecommunications industry.

**3. Technical Qualifications**

Applicant's key management personnel have significant business and telecommunications experience. Applicant is currently authorized to provide interexchange and/or local exchange service in Florida, Kentucky and North Carolina. Absolute Home Phones is in the process of obtaining authorization to provide local and interexchange service

in Alabama, Georgia, Louisiana, Mississippi, South Carolina and Tennessee. No such applications have been denied or dismissed. Applicant will also rely upon the technical expertise and telecommunications experience of its underlying carriers.

Absolute Home Phones will initially resell the facilities of the existing LECs or underlying carriers that presently serve South Carolina. Absolute Home Phones will primarily resell the facilities and services of AT&T. Absolute Home Phones will also use unbundled network elements and services purchased from AT&T and other incumbent local exchange providers, where applicable.

Applicant's current business and network plans call for market entry via resold LEC and IXC facilities. When customer demand warrants, Applicant proposes to offer resold and facilities-based local exchange services. Such services will be provided by utilizing the facilities incumbent local exchange carriers ("LECs"), as well as through Applicant's own facilities.

Applicant seeks authority to resell and provide through its own facilities local exchange services throughout the State primarily in the areas served by AT&T. Applicant's local calling areas initially will coincide with the incumbent local exchange carrier's local calling areas. Upon its entry into the South Carolina market, Applicant intends to install equipment for the provision of local exchange services. When Applicant installs facilities in South Carolina, it will probably use the following or a similar configuration of equipment: Applicant will provide voice and high speed data services through a combination of the latest technology switching and transport media. The switching system consists of a central processing and control complex capable of interconnection as a peer to the incumbent as well as competitive local exchange companies. The hub portion of the switch will interconnect with the public switched network on Signaling

System 7 ("SS7") or Feature Group D ("FGD") facilities. The system's remote module capability will allow properties to be served in a manner that provides the exchange of appropriate signaling, control and calling/caller information to the network in accordance with network standards and specifications. Additionally, these services will be delivered over a combination of delivery mechanisms through incumbent local carriers' unbundled loop network, both copper and fiber and transport networks, as well as via Applicant constructed facilities. Its services will be available on a full-time basis, twenty-four hours a day, seven days a week, to customers within the geographic boundaries of the State of South Carolina. Customers will be billed by Applicant. Applicant is committed to providing access to a local operator, directory assistance, 911 services, and dual relay services. Applicant is also willing to accept its obligations to collect 911 and dual relay service surcharges from its local exchange customers, and to remit those funds to the appropriate authorities.

Absolute Home Phones is currently providing service in Florida, Kentucky and North Carolina.

As the foregoing illustrates, Absolute Home Phones possesses considerable telecommunications expertise. Absolute Home Phones is technically qualified to provide local exchange and interexchange telecommunications services in South Carolina.

#### **IV. Approval of Absolute Home Phones' Application is in the Public Interest**

Granting Absolute Home Phones' Application is consistent with S.C. Code Ann. § 58-9-280(B), as amended by 1996 Act No. 354, and, in that regard Applicant makes the following representations to the Commission:

- a. Applicant possesses the technical, financial, and managerial resources sufficient to provide the services requested;
- b. Applicant's services will meet the service standards required by the

Commission;

- c. The provision of local and interexchange services by Applicant will not adversely impact the availability of affordable local and interexchange service;
- d. Applicant, to the extent it is required to do so by the Commission, will participate in the support of universally available telephone service at affordable rates; and,
- e. The provision of local and interexchange services by Applicant will not adversely impact the public interest.

The demands of a competitive market are a better means to achieve affordability and quality of service than a monopoly environment. As competitors vie for market share, they will compete based upon price, innovation and customer service.

Those providers that offer consumers the most cost effective products will gain market share. In contrast, providers whose products do not meet the needs of consumers will lose market share and, ultimately, be eliminated from the industry.

Additionally, Absolute Home Phones' entry into the local exchange and interexchange markets will not unreasonably prejudice or disadvantage any telephone service providers. Incumbent local exchange carriers presently serve a large majority of the local exchange customers in South Carolina. The major advantages of incumbency (i.e., ownership of the existing local network as well as access to, and long-standing relationships with, every local customer) constitute a substantial obstacle to new entrants. Moreover, exchange services competition will stimulate the demand for the services supplied by all local service carriers, including those of the incumbent LECs. Thus, in a competitive market, there will be increased potential for such LECs to generate higher revenues. Additionally, in a competitive market, incumbent providers will have market incentives to improve the efficiency of their operations, thereby reducing their costs and ultimately their profit margins. Finally, it is important to recognize that in a competitive market, incumbent LECs will derive revenues

from both resellers of their local exchange and interexchange services as well as facilities based competitive local exchange providers.

Currently, South Carolina consumers have a limited choice with regard to the provision of local exchange telecommunications service. A competitive local and interexchange service market comprised of incumbents and competitive providers such as Absolute Home Phones will offer consumers a competitive option and, therefore, will better satisfy the needs of various market segments. In this regard, approval of this Application is clearly in the public interest.

**V. Description of Services Offered and Service Territory**

For informational purposes, Absolute Home Phones has filed with this Application an illustrative price list based on Absolute Home Phones' current expectations regarding local services. (Exhibit "E"). Absolute Home Phones seeks authority to offer the following services:

**Interexchange (switched and dedicated services):**

- A. 1+ and 101XXXX outbound dialing;
- B. 800/888 toll-free inbound dialing;
- C. Calling cards; and
- D. Data Services.

**Local Exchange:**

- A. Local Exchange Services that will enable customers to originate and terminate local calls in the local calling area served by other LECs.
- B. Switched local exchange services, including basic service, trunks, carrier access, and any other switched local services that currently exist or will exist in the future.
- C. Non-switched local services (e.g., private line) that currently exist or will exist in the future.
- D. Centrex and/or Centrex-like services that currently exist or will exist in the future.
- E. Digital subscriber line, ISDN, and other high capacity services.

Prior to providing local exchange services to the public in South Carolina, Absolute

Home Phones will file a complete Final Tariff and/or Price List with the Commission. Furthermore, Applicant submits contemporaneously with this application its proposed tariff for local exchange service (Exhibit E) and interexchange service (Exhibit F), which contain a description of services to be provided, all rules and regulations applicable to such services, and proposed rates for such services.

## **VI. Waivers and Regulatory Compliance**

Absolute Home Phones requests that the Commission grant it a waiver of those regulatory requirements inapplicable to competitive local service resellers such as Absolute Home Phones. Such rules are not appropriate or necessary for competitive providers and constitute an economic barrier to entry into the local exchange market.

### **1. Financial Record-Keeping System**

a. Absolute Home Phones respectfully requests that it be exempt from any record-keeping rules or regulations that might require a carrier to maintain its financial records in conformance with the Uniform System of Accounts ("USOA"). The USOA was developed by the FCC as a means of regulating telecommunications companies subject to rate base regulation.

b. As a competitive carrier, Absolute Home Phones maintains its book of accounts in accordance with Generally Accepted Accounting Principles ("GAAP"). Neither the FCC, nor the Commission, has required Absolute Home Phones to maintain its records under the USOA for purposes of Absolute Home Phones' interexchange operations. Thus, Absolute Home Phones does not possess the detailed cost data required by USOA, nor does it maintain detailed records on a state-specific basis. As a competitive provider, Absolute Home Phones' network operations are integrated to achieve maximum efficiency. Having to maintain records pertaining specifically to its South Carolina local service operations would place an extreme burden on Absolute Home Phones.

c. Moreover, Absolute Home Phones asserts that because it utilizes GAAP, the Commission will have a reliable means by which to evaluate Absolute Home Phones' operations. Therefore, Absolute Home Phones hereby respectfully requests to be exempt from the any USOA requirements of the Commission.

d. In addition, the Company hereby respectfully requests a waiver of 26 S.C. Code & Ann. Regs. 103-610, which requires books and records to be kept in the State of South Carolina, but rather, the Company desires to keep its books and records at its principal place of business.

## **2. Local Exchange Directories**

Applicant respectfully requests a waiver of the requirement in Rule 103-631 to publish and distribute local exchange directories. Absolute Home Phones will make arrangements with the incumbent LECs whereby the names of Absolute Home Phones' customers will be included in the directories published by the incumbent LECs. LEC directories will also be modified to include Absolute Home Phones' customer service number.

These directories will be distributed to Absolute Home Phones' customers. This approach is entirely reasonable and will have a direct benefit to the customers of both Absolute Home Phones and the incumbent LEC since they need only refer to one directory for a universal listing of customer information. It would be an unnecessary burden on Absolute Home Phones to require that it publish and distribute its own directory to all customers located within each exchange area, particularly since nearly all of these customers will be customers of the incumbent LECs. It is more efficient for Absolute Home Phones to simply include its limited customer list in the existing directories of the incumbent LECs.

## **3. Flexible Regulation of Local Services and Alternative Regulation of Interexchange Services**

Applicant respectfully requests that its local service offerings be regulated in

accordance with procedures authorized for NewSouth Communications in Order No. 98-165 in docket No. 97-467-C. Additionally, Applicant respectfully requests that its interexchange service offerings be regulated in accordance with procedures established for alternative regulation in Order Nos. 95-1734 and 96-55 in Docket No. 95-661-C.

#### **4. Marketing Practices**

Pursuant to the South Carolina Public Service Commission's Order No. 95-658 (issued March 20, 1995), Applicant makes the following affirmation relating to the Applicant's provision of services:

As a telephone utility under the regulation of the Public Service Commission of South Carolina, Carrier does hereby assert and affirm that as a reseller of intrastate telecommunications service, Carrier will not indulge or participate in deceptive or misleading telecommunications marketing practices to the detriment of consumers in South Carolina, and will comply with those marketing procedures, if any, set forth by the Public Service Commission. Additionally, Carrier will be responsible for the marketing practices of its contracted telemarketers for compliance with this provision. Carrier understands that violation of this provision could result in a rule to show cause as to the withdrawal of its certification to complete intrastate telecommunications traffic within the state of South Carolina.

#### **5. Maps**

Applicant's local exchange calling areas will initially mirror the service areas of the incumbent local exchange carriers; therefore, Applicant hereby respectfully requests a waiver of the map-filing requirement pursuant to 26 S.C. Code & Ann. Regs. 103-612.2.3 and of 26 S.C. Code Ann. Regs. 103-631 requiring publication of directories.

### **VII. Conclusion**

This Application demonstrates that Absolute Home Phones, Inc., possesses the

technical, financial and managerial resources to provide resold and facilities-based local exchange and interexchange service in the State of South Carolina. Furthermore, granting this Application will promote the public interest by increasing the level of competition in the South Carolina telecommunications market. Ultimately, competition will compel all exchange telecommunications service providers to operate more efficiently and pass the resultant cost savings on to consumers. In addition, as a result of competition, the overall quality of local exchange and interexchange service will improve. As stated above, Applicant does not intend to provide local service, by its own facilities or otherwise, to any customer located in a rural incumbent LEC's service area, until Applicant provides such LECs notice of intent at least 30 days prior to the date of the intended service.

Wherefore, Absolute Home Phones, Inc., respectfully petitions this Commission for authority to operate as a reseller and facilities-based provider of local exchange and interexchange telecommunications services in the State of South Carolina and for local service offerings to be regulated in accordance with procedures authorized for NewSouth Communications in Order No. 98-165 in docket No. 97-467-C; and for interexchange service offerings to be regulated in accordance with procedures established for alternative regulation in Order Nos. 95-1734 and 96-55 in Docket No. 95-661-C, in accordance with this Application and for such other relief as it deems necessary and appropriate.

Respectfully submitted,

**Absolute Home Phones, Inc.**

**TARIFF FORMAT**

A. Sheet Numbering: Sheet numbers appear in the upper right corner of the page. Sheets are numbered sequentially. However, new sheets are occasionally added to the tariff. When a new sheet is added between sheets already in effect, a decimal is added. For example, a new sheet added between pages 11 and 12 would be page 11.1.

B. Sheet Revision Numbers: Revision numbers also appear in the upper right corner of each sheet where applicable. These numbers are used to indicate the most current page version on file with the Commission. For example, 4th Revised Sheet 13 cancels 3rd Revised Sheet 13. Consult the Check Sheet for the sheets currently in effect.

C. Paragraph Numbering Sequence: There are nine levels of paragraph coding. Each level of coding is subservient to its next higher level:

2.  
2.1  
2.1.1  
2.1.1.A  
2.1.1.A.1  
2.1.1.A.1.(a)  
2.1.1.A.1.(a).I  
2.1.1.A.1.(a).I.(i)  
2.1.1.A.1.(a).I.(i).(1)

D. Check Sheets: When a tariff filing is made with the Commission, an updated Check Sheet accompanies the tariff filing. The Check Sheet lists the sheets contained in the tariff, with a cross reference to the current Revision Number. When new sheets are added, the Check Sheet is changed to reflect the revision. All revisions made in a given filing are designated by an asterisk (\*). There will be no other symbols used on this sheet if these are the only changes made to it (i.e., the format, etc. remains the same, just revised revision levels on some sheets). The tariff user should refer to the latest Check Sheet to find out if a particular sheet is the most current on Commission file.

**SECTION 2 - RULES AND REGULATIONS****2.1 Undertaking of the Company**

This tariff contains the regulations and rates applicable to intrastate interexchange telecommunications services provided by the Company for telecommunications between points within the State of South Carolina. Services are furnished subject to the availability of facilities and subject to the terms and conditions of this tariff in compliance with limitations set forth in the Commission's rules. The Company's services are provided on a statewide basis and are not intended to be limited geographically. The Company offers service to all those who desire to purchase service from the Company consistent with all of the provisions of this tariff. Customers interested in the Company's services shall file a service application with the Company which fully identifies the Customer, the services requested and other information requested by the Company. The Company may rely upon a letter of credit prior to accepting a service order. The Company may act as the Customer's agent for ordering access connection facilities provided by other carriers or entities when authorized by the Customer, to allow connection of a Customer's location to a service provided by the Company. The Customer shall be responsible for all charges due for such service arrangement. Any marketing efforts will clearly indicate to potential customers the nature of the transaction which is being offered. Materials submitted to prospective customers will clearly indicate that those customers will be changing their long distance carrier if they accept such solicitation. As a telephone utility under the regulation of the Commission, the Company does hereby assert and affirm that as a reseller of intrastate telecommunications services it shall not indulge or participate in deceptive or misleading telecommunications marketing practices to the detriment of consumers in South Carolina, and it shall comply with those marketing procedures, if any, set forth by the Commission. Additionally, the Company shall be responsible for the marketing practices of its contracted telemarketers and for their compliance with this provision.

**SECTION 3 - DESCRIPTION OF SERVICE****3.1 Computation of Charges**

- 3.1.1 The total charge for each completed call may be a variable measured charge dependent on the duration, distance and time of day of the call. The total charge for each completed call may also be dependent only on the duration of the call, i.e. a statewide flat rate per minute charge. The variable measured charge is specified as a rate per minute which is applied to each minute. All calls are measured in increments as set forth in the Rates Section of this tariff. Fractions of a billing increment are rounded up to a full billing increment on a per call basis. Fractions of a cent per minute are rounded up to a full cent on a per call basis.
- 3.1.2 Where mileage bands appear in a rate table, rates for all calls are based upon the airline distance between the originating and terminating points of the call, as determined by the vertical and horizontal coordinates associated with the exchange (the area code and three digit central office code) associated with the originating and terminating telephone numbers. If the Customer obtains access to the Company's network by a dedicated access circuit, that circuit will be assigned an exchange for rating purposes based upon the Customer's main telephone number at the location where the dedicated access circuit terminates. The vertical and horizontal (V & H) coordinates for each exchange and the airline distance between them will be determined according to industry standards.

3.1.3 Timing begins when the called station is answered and two way communication is possible, as determined by standard industry methods generally in use for ascertaining answer, including hardware answer supervision in which the local telephone company sends a signal to the switch or the software utilizing audio tone detection. Recognition of answer supervision is the responsibility of the Underlying Carrier. Timing for each call ends when either party hangs up. The Company will not bill for uncompleted calls.

### **3.2 Customer Complaints and/or Billing Disputes**

3562 S.W. 24th Avenue Road  
Ocala, Florida 34471  
Customer Service: (866) 500-9976

Any objection to billed charges should be reported promptly to the Company. Adjustments to Customers' bills shall be made to the extent that records are available and/or circumstances exist which reasonably indicate that such charges are not in accordance with approved rates or that an adjustment may otherwise be appropriate. Where overbilling of a subscriber occurs, due either to Company or subscriber error, no liability exists which will require the Company to pay any interest, dividend or other compensation on the amount overbilled; provided, however, in the event that the Company has willfully overcharged any Customer, the Company shall refund the difference, plus interest, as prescribed by the Commission.

3.5.4 Company Prepaid Calling Cards

This service permits use of Prepaid Calling Cards for placing long distance calls. Customers may purchase Company Prepaid Calling Cards at a variety of retail outlets or through other distribution channels. Company Prepaid Calling Card service is accessed using the Company toll-free number printed on the card. The caller is prompted by an automated voice response system to enter his/her Authorization Code, and then to enter the terminating telephone number. Company's processor tracks the call duration on a real time basis to determine the number of Telecom Units consumed. The total consumed Telecom Units and applicable taxes for each call are deducted from the remaining Telecom Unit balance on the Customer's Company Prepaid Calling Card.

All calls must be charged against Prepaid Calling Card that has a sufficient Telecom Unit balance. A Customer's call will be interrupted with an announcement when the balance is about to be depleted.

When the balance is depleted, the Customer can either call the toll-free number on the back of the Company Prepaid Calling Card and "recharge" the balance on the card using a nationally recognized credit card, or the Customer can throw the card away and purchase a new one. Calls in progress will be terminated by the Company if the balance on the Company Prepaid Calling Card is insufficient to continue the call.

A card will expire on the date indicated on the card, or if no date is specified, 6 months from the date of purchase, or the date of last recharge, whichever is later.

A credit allowance for Company Prepaid Calling Card Service is applicable to calls that are interrupted due to poor transmission, one-way transmission, or involuntary disconnection of a call. To receive the proper credit, the Customer must notify the Company at the designated toll-free customer service number printed on the Company Prepaid Calling Card and furnish the called number, the trouble experienced (e.g. cut-off, noisy circuit, etc.), and the approximate time that the call was placed.

When a call charged to a Company Prepaid Calling Card is interrupted due to cut-off, one-way transmission, or poor transmission conditions, the Customer will receive a credit equivalent of one Telecom Unit and applicable per call charges and fees.

Credit allowances for calls pursuant to Company Prepaid Card Service do not apply for interruptions not reported promptly to the Company or interruptions that are due to the failure of power, equipment or systems not provided by the Company.

Credit for failure of service shall be allowed only when such failure is caused by or occurs due to causes within the control of the Company.

The Company will block all calls beginning with the NPA "900" and NXX "976" calls, therefore such calls can not be completed.
